One pager re Exide for GM draft.docx

Sonya,

Our staff contact in Nathan Dadap (415-972-3972). I've attached a background paper from February that was provided to the Administrator's staff. We will keep you posted. Tom

Thanks for the heads-up, Tom. I would appreciate, as you said, getting any background you end up putting together. In the meantime, I may call you or ask our Region 9 liaison (can't recall at the moment who that is) to call for a little background. Is there a staffer they could contact?

Subject: Proposed Meeting with the Administrator on Exide

Sonya,

From our Public Affaris Office - a heads-up about a visits with the Administrator regarding the LA-area Exide facility (a recently closed RCRA site). Let me know if you need background. I will keep you in the loop on any background we put forward. Tom

Los Angeles County Supervisor Hilda Solis: Brent Maier is working with Andrew Hanson in the HQ Intergovernmental Office to follow up on a letter sent to EPA Administrator McCarthy's scheduling office to see if a meeting can be arranged with Supervisor Solis is back in DC in April. We believe Supervisor Solis wishes to talk with Administrator McCarthy about the Exide lead cleanup issue and are awaiting word back from Los Angeles County lobbyist, R.J. Lyerly as to any other topics Supervisor Solis wishes to discuss. Once we confirm, Brent will work with our Land, Superfund, and Enforcement Divisions on any background materials and talking points on the Exide lead cleanup issue if that is the subject of interest for this meeting. Superfund's John Lyons has noted that he believes this meeting has been calendared on the Administrator's calendar for April 21st.
